

BRIDGES OUT OF POVERTY

*strategies for communities
and professionals*

Bridges Out of Poverty workshops aim to develop a shared understanding and framework to collaborate together to build a sustainable community where all can thrive. The second day focuses on applying the concepts across sectors to improve outcomes for families and communities that are under-resourced.

This workshop gives leaders, administrators, staff, community members and volunteers the common language, understanding and tools to prevent and alleviate poverty. Participants increase awareness of how economic class impacts life experience, resources and stability. Customer service and teamwork in business and community settings are improved. New insights will improve our strategies to improve individual, institutional and community based outcomes. This workshop is based on the book *Bridges Out Of Poverty: Strategies for Professionals and Communities* a collaboration between Ruby K. Payne, Philip DeVol, and Terie Dreussi Smith.

- Facilitated by Keith Adams & Edward Spencer, certified Bridges Out of Poverty trainers.
- All training material, lunch & snacks are provided for both days.
